

Art Unit: 1644

DETAILED ACTION

1. Applicant's amendment and remarks, filed 2/22/09, are acknowledged.

Claim 1 has been amended.

Claims 1, 5-22, 26, and 28-37 are pending.

2. Upon reconsideration, the restriction requirement between groups I-V, drawn to scTCR comprising various specific amino acid substitutions, is withdrawn. Claims 20-22 are rejoined.

3. Claims 28-29, drawn to species of scTCR, are rejoined.

4. Claim 1 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claims 33-35, directed to the process of using the allowable product, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because a claimed invention previously withdrawn from consideration under 37 CFR 1.142 has been rejoined, **the restriction requirement between groups I-VIII as set forth in the Office action mailed on 1/10/2008 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

6. Authorization for this examiner's amendment was given after a telephone interview with Lisa Hemmendinger on 2/27/09.
